Mudasir Shafiq

LEAD DATA ENGINEER | CLOUD DATA PLATFORMS | GOVERNANCE AND AI

Paris, France +33 7 75 73 96 00 chmudasir.fr@gmail.com LinkedIn GitHub Portfolio

PROFESSIONAL PROFILE

Data Engineer with 4+ years of experience owning the architecture and delivery of cloud data platforms, batch and streaming pipelines, analytical models, and AI-enabled data products. Strong in Python and SQL with hands-on delivery across Airflow, Kafka, dbt, Spark, PostgreSQL, BigQuery, Redshift, Snowflake, AWS, GCP, and Azure. Builds secure, traceable systems with data-quality controls, lineage, versioned reference data, RBAC, automated deployment, and production monitoring - capabilities well suited to quality-sensitive and regulated enterprise environments.

Architecture and technical ownership
End-to-end solution design, data modelling, integration patterns, delivery planning, and production readiness.

Reliable data engineering
Batch and streaming ingestion, orchestration, transformation, testing, observability, and performance optimization.

Governance and auditability
Validation rules, lineage, reproducibility, versioned mappings, immutable audit history, and controlled access.

Cross-functional delivery
Translates business and analytical requirements into maintainable data models, APIs, dashboards, and reports.

PROFESSIONAL EXPERIENCE

Data and AI Engineer

Jul 2026 - Present

Growlytics | Remote

- Own end-to-end data architecture for a multi-tenant competitive-intelligence platform, including PostgreSQL modelling and serverless ingestion across Meta Ad Library, Google Ads Transparency, TikTok via Apify, Meta Marketing, and Google Ads APIs.
- Built deterministic performance-metric pipelines and grounded Claude and Gemini analysis, keeping computed evidence separate from generated narratives for traceable, reviewable outputs.
- Automated scheduled ingestion, report generation, billing, and email delivery using Vercel, Blob storage, cron workflows, Paddle, and Resend.

Data and AI Engineer / Full Stack Engineer

Jun 2026 - Present

GrowMore and Collabs+ | Dubai / Remote

- Designed and implemented data-intensive platform services with Next.js, FastAPI, PostgreSQL, SQLAlchemy, Alembic, Pydantic, JWT/RBAC, Redis caching, file ingestion, and background email workflows.
- Modelled the Collabs+ domain across 9 business modules and 35 PostgreSQL tables, enforcing relationship constraints, role-based access, soft deletion, immutable audit history, and user-controlled notification preferences.
- Defined scalable AI matching and real-time data flows using pgvector and IVFFlat search, Celery with Redis, Socket.IO Pub/Sub, Cloudflare R2, OpenAI, and PydanticAI.
- Established containerized delivery patterns, environment isolation, CI/CD, health monitoring, and secure Nginx/TLS deployment architecture.

Data Engineering Consultant

Feb 2026 - Jul 2026

Watershed | Contract | Paris / Remote

- Designed normalized models connecting products, bills of materials, manufacturing processes, and environmental factors for traceable product-impact calculations.
- Built repeatable ETL workflows that standardized units, validated keys and mappings, and preserved raw-to-normalized lineage across spreadsheet and catalogue data.
- Implemented versioned reference mappings and quality checks for ambiguous candidates, missing factors, unit mismatches, and reproducible downstream calculations.

PROFESSIONAL EXPERIENCE CONTINUED

Data Engineer
Dec 2023 - Jun 2024

Ceres-Advisory | Blockchain and Web3 | Paris

- Architected a real-time GA4-to-BigQuery pipeline through GTM, reducing reporting latency from hours to minutes across 15+ KPI dashboards.
- Optimized multi-million-row blockchain datasets with partitioning and window functions, reducing SQL query time by 60%.
- Designed resilient AWS ingestion with Lambda, Step Functions, and S3, achieving zero post-deployment pipeline failures.
- Developed a DistilBERT sentiment pipeline and surfaced model outputs through Power BI and Grafana monitoring views.

Data Analyst and Performance Marketing
Jan 2022 - Sep 2023

PriceOye | E-commerce | Pakistan

- Sustained ROAS of 6.33x-43x and delivered PKR 18M monthly GMV through data-driven campaign optimization and audience analysis.
- Raised customer retention from 10% to 15% through AI-powered audience segmentation and automated lifecycle campaigns.
- Automated Power BI pipelines and KPI dashboards, eliminating more than 10 hours of manual reporting each week.

SELECTED DATA ENGINEERING PROJECTS

Livestock Intelligence
Kafka | Airflow | BigQuery | scikit-learn

- Built a Kafka-to-BigQuery pipeline with Airflow orchestration, CTE-based feature engineering, validation, and LAG window functions for continuous time-series data.
- Prepared model-ready features for health classification, fertility prediction, and milk-yield regression.

Reddit ETL Pipeline
Airflow | Terraform | AWS | dbt | Redshift | Tableau

- Automated AWS ingestion with Airflow and Terraform, then modelled Data Vault 2.0 transformations in dbt and Redshift.
- Published curated analytical datasets through repeatable Tableau dashboards for stakeholder reporting.

Synthetic Data Engine
Python | Validation Rules | Google Sheets

- Generated configurable daily datasets with field-level constraints and business-rule validation.
- Implemented idempotent Google Sheets upserts to prevent duplicates and support repeatable downstream testing.

TECHNICAL EXPERTISE

Programming: Python, SQL, TypeScript, JavaScript

Platforms: PostgreSQL, BigQuery, Snowflake, Redshift, Databricks, Redis, pgvector

Governance and quality: Lineage, validation, versioning, audit history, unit normalization, reference mappings

DevOps: Docker, Kubernetes, Terraform, GitHub Actions, CI/CD, Nginx, Linux

Data engineering: Airflow, Kafka, Spark, Hadoop, dbt, ETL/ELT, streaming, Data Vault 2.0

Cloud: AWS, GCP, Azure, S3, Lambda, Step Functions, Vercel, Cloudflare R2

Security and APIs: FastAPI, REST, Pydantic, JWT, RBAC, NextAuth, tenant isolation

Analytics and AI: Power BI, Tableau, Grafana, GA4, OpenAI, Claude, Gemini, scikit-learn

EDUCATION

MSc Data Engineering
Aivancity University Paris | 2023 - 2024

BS Mathematics
Air University | 2016 - 2020

CERTIFICATIONS

AWS Cloud Practitioner

IBM Data Engineer

Google Data Analytics

Machine Learning - Coursera

LANGUAGES

English
Advanced

French
A2 / B1
